NTS Opens its New Corporate Center in Anaheim

Anaheim, CA (August 14, 2018). National Technical Systems, Inc. (“NTS”), the leader in qualification testing, inspection, and certification solutions in North America, is excited to announce the opening of its new Corporate Center in Anaheim, CA.

The Corporate Center expands the company’s presence in the City of Anaheim, which is already home to one of NTS’s 27 laboratories. The new center integrates corporate functions from Calabasas, Fullerton, and Brea offices into a single location. The move is aimed at streamlining efficiencies and building an infrastructure to support the company’s projected growth in the years ahead.

To celebrate the move, the company hosted a ribbon-cutting ceremony, which featured proclamations from Congressional and City representatives. “We’re excited to expand our presence in Orange County,” said Rich Adams, CEO at NTS. “With integrated corporate functions, we’re able to better support our labs, which continue to offer the best testing, inspection, and certification services in the nation.”

The center now houses Finance, Accounting, Marketing, Procurement, Human Resources, Contract Administration, and Information Technology personnel in a single environment to support the company’s projected growth. NTS joins a prominent business community in Anaheim, which is home to Disneyland, MLB’s Los Angeles Angels, and NHL’s Mighty Ducks.

About National Technical Systems

National Technical Systems, Inc. (NTS) is the leading provider of qualification testing, inspection, and certification services in North America, serving a broad range of industries, including the civil aviation, space, defense, nuclear, telecommunications, industrial, electronics, medical, and automotive end markets. Since 1961, NTS has built the broadest geographic presence in the United States, offering more than 70 distinct environmental simulation and materials testing categories, including climatic, structural, dynamics, fluid flow, EMI/EMC, lightning, product safety, acoustics, failure analysis, chemical, and other industry-specific tests. Operating through a network of more than 27 technologically advanced testing laboratories, this geographically diverse footprint puts NTS facilities in close proximity to its more than 4,000 clients, allowing NTS to serve the nation’s most innovative companies with industry-leading accessibility and responsiveness.

NTS is accredited by numerous national and international organizations and operates its inspection division under the Unitek brand, providing a wide range of supply chain management services. NTS’ certification division, which operates under the NQA brand, is one of the largest and most respected global ISO registrars, with active certifications in more than 75 countries. For additional information about NTS, visit our website at www.nts.com or call 800-270-2516.
