## Michael Graham Joins NTS as New General Manager at Longmont Laboratory

Longmont, CO (September 12, 2018). National Technical Systems, Inc. (“NTS”), the leader in qualification testing, inspection, and certification solutions in North America, is pleased to announce Michael Graham as the new General Manager for the Longmont testing facility.

Michael spent 30 years in the Air Force, attaining the rank of Colonel. He holds MS degrees in Systems Management and National Security Strategy from the University of Southern California and the National Defense University, respectively. He also attended the US Air Force Academy, earning his BS degree in Aeronautical Engineering. He has had various senior and executive management roles, working in the defense industry over the last nine years.

With deep government experience—and a demonstrated track record of success in operations, engineering service, business development, and building high performance teams—Michael is uniquely prepared to lead the Longmont team. “I am excited to join an organization that has defined an entire industry,” said Graham. “With advanced EMC, dynamics, and environmental testing capabilities, the Longmont laboratory is ideally equipped to introduce the next generation of testing services for the medical, packaging, aerospace, and space sectors.”

### About National Technical Systems

National Technical Systems, Inc. (NTS) is the leading provider of qualification testing, inspection, and certification services in North America, serving a broad range of industries, including the civil aviation, space, defense, nuclear, telecommunications, industrial, electronics, medical, and automotive end markets. Since 1961, NTS has built the broadest geographic presence in the United States, offering more than 70 distinct environmental simulation and materials testing categories, including climatic, structural, dynamics, fluid flow, EMI/EMC, lightning, product safety, acoustics, failure analysis, chemical, and other industry-specific tests. Operating through a network of more than 27 technologically advanced testing laboratories, this geographically diverse footprint puts NTS facilities in close proximity to its more than 4,000 clients, allowing NTS to serve the nation’s most innovative companies with industry-leading accessibility and responsiveness. NTS is accredited by numerous national and international organizations and operates its inspection division under the Unitek brand, providing a wide range of supply chain management services. NTS’ certification division, which operates under the NQA brand, is one of the largest and most respected global ISO registrars, with active certifications in more than 75 countries. For additional information about NTS, visit our website at [www.nts.com](http://www.nts.com) or call 800-270-2516.
