NTS Launches New Website

The new website connects customers to industry experts and the world's most complex testing, inspection, and certification solutions

Calabasas, CA (January 10, 2017). National Technical Systems (NTS), the leader in advanced testing, inspection, and certification solutions in the North America, is pleased to announce the launch of its newly designed website at www.nts.com. The completely revamped website features simplified design, improved functionality and enriched content areas to help customers make well-informed decisions about their testing and inspection needs in different sectors such as space, defense, aviation, nuclear, energy, technology, transportation, medical, and telecom.

The website is built for companies that require rigorous testing and industry-specific solutions. "We are thrilled to debut our new company website to our customers, partners, investors and visitors," said Sarah Willis, Vice President of Marketing at NTS. "The new website makes the incredible breadth of our services easy to understand—and it highlights our history as an innovator across multiple industries."

The new website offers a responsive design, which is optimized for viewing on any screen size to fit the growing mobile audience. Prospects and the company's over 4,000 customers can now access NTS experts, industry information and educational resources easily from any device, including directions to any of our 28 laboratories. With an enriched user experience, customers are able to find the information they need to help them achieve their business goals.

The redesigned website is part of a larger customer-focused initiative that is will be unveiled throughout the year. The initiative, which includes an entirely different web experience, is centered on making it easier for customers to interact with NTS across all communication touch points—while providing faster turnaround times and better customer service. "We are the gold standard in our industry," explains Willis. "As a pioneer with more than 50 years of experience, we look forward to raising the bar even higher."

About National Technical Systems
National Technical Systems (NTS) is the undisputed leader environmental simulation testing, inspection, and certification services. Since 1961, NTS has built the broadest geographic presence in the United States, offering more than 70 distinct environmental simulation and materials testing categories, including climatic, structural, dynamics, fluid flow, EMI/EMC, lightning, product safety, acoustics, failure analysis, chemical, and other industry-specific tests. NTS is accredited by numerous national and international organizations and operates its inspection division under the Unitek brand, providing a wide range of supply chain management services. NTS' certification division, which operates under the NQA brand, is one of the largest

and most respected global ISO registrars, with active certifications in more than 75 countries. For additional information about NTS, visit our website at www.nts.com or call 800-270-2516.
