

International Certifications

International Certifications Overview

NTS Elliott Laboratories' International Certification service is a robust solution to achieve international compliance and regulatory objectives on behalf of a manufacturer's global marketing effort. With a focus towards accessing worldwide market certifications in the Information Technology, Wireless and Telecom technology sectors, Elliott Laboratories' solution is a cost effective solution to rapidly achieve market access. The services are specifically designed to support:

1. Country investigations to determine specific requirements in the design process prior to product development.
2. Specific country approvals where testing and reports to current requirements are provided at an accredited NTS test laboratory.
3. Processing specific in-country approvals using accredited NTS and globally recognized test reports.
4. Test in-country and need in-country representation to support such test programs at government accredited test laboratories.

The services are designed in a manner to support dedicated project management logistics to ensure manufacturers have an accurate and comprehensive understanding of the specific country requirements, approval process, project status, labeling guidelines and any/all approval renewals. Elliott Laboratories International Certification solution is supported by 3 specific solutions:

1. Direct country accreditations and testing capabilities in domestic test laboratories supported by direct interactions with international government regulatory bodies.
2. In-country agents specifically supporting international approval needs and interactions with international government regulatory bodies.
3. Strategic partnerships with 3rd party business partners who offer direct certification services in specific regions around the world.

Elliott Laboratories' International Certification services span across the globe covering almost every country/region that is open to global trading; including but not limited to: Canada, Mexico, Brazil, Argentina, Chile, the European Union, Russia, Saudi Arabia, UAE, Bahrain, Israel, Egypt, Morocco, South Africa, India, Pakistan, China, Taiwan, Hong Kong, Japan, South Korea, Singapore, Malaysia, Vietnam, Thailand, Indonesia, Australia, New Zealand, etc.
